

Progress Report for Mukuru Emergency Support Due to Slum Demolitions

“Support vulnerable households overcome poverty situations”

K

APPENDIX 1

Interim Narrative Report

For the attention of

Lea König, Program Officer ,NAK KARITATIVE

Nairobi, Kenya –February,2023

Partner	Kujenga Maisha	Project Number:	2022-004
Project Name	Mukuru Emergency support &Relief due to Slum Demolitions	Project Duration	June 2022 to November,2022
Project Leader	Peter M. Okaka	Reporting period:	February,2023

1. General Information

1.1. Project Information

The project was formulated due to the suffering of the community members after several informal settlements/slums were demolished to pave way for road construction and the urban housing development scheme. The demolitions were done to pave way for the expansion of Catherine Ndereba Road that will connect the Nairobi expressway with Industrial Area and also open up the slum for business.

The situation become pathetic since most of the community members and villagers become homeless and other key emerging issues related to COVID -19 affected the communities. The demolition took place in several villages ranging from Mukuru Kwa Njenga to other informal settlements considered sites for urban house upgrading scheme. Therefore, the situation affected the community as follows;

- a) Loss of livelihoods at family level due to destruction of business premises
- b) Inadequate shelter leading households to live in makeshift camps
- c) Inadequate access to water and sanitation facilities due to demolitions of all structures in the community
- d) Inadequate family integration due to displacement of family members
- e) Increase in insecurity due to loss of incomes and youths keen to be involved in thuggery and robbery in the villages.

f) Increased social unrests due to fighting of community and the police over demolitions

The demolitions affected approximately 30no. villages affecting over 700 people.

The project partly addressed the needs by providing 400no. food packages,400no. Mattress and 400no. blankets. All the products were provided as single distribution. In the agreement the church is to contribute 10% of the food packages costs to secure the 4no. food packages pending distribution as per the project agreement.

Due the church involvement the selection of the beneficiaries was conducted in conjunction with the church so that there is fair distribution to the affected families. The church, local administration and KUMEA worked together to identify the beneficiaries.

Therefore, the distribution covered the following aspects;

- a) Community members & households afflicted by the demolitions
- b) The orphan families and persons with disability supported by the wings to fly who reside in the affected villages
- c) The church members who reside in the informal settlements and have been affected by the demolitions

List the indicators of the **Specific Objective**, and provide level of achievement

Specific Objectives	Level of Achievement
1. Provide food packages to 400no. Households affected by the demolitions of the informal settlements(1st Distribution)	a) Provided 1st food packages distribution to 400no. Families including orphans & persons with disability, displaced community members and church members afflicted by the demolitions
	b) All identified 400no. families received food stuff packages including orphans & persons with disability families
	c) Children from needy afflicted & affected families have access to meals
2. Providing Bedding materials (Mattres & blankets) to 400no. Households to provide shield from cold weather	a) Provided bedding materials (mattress and blankets) to the 400no. Families affected & afflicted with the slum/informal settlements demolitions as per the distribution lists provided
	b) 400no. Families afflicted & affected including orphans & persons with disability, displaced by evictions & demolitions are cushioned against bad/poor weather

2. Project Implementation

2.1. Results and activities

Project Objectives	Key outputs	Key outcomes	Impacts
Provide food packages for relief to 400no. families affected and afflicted with slum demolitions to pave way for road construction and housing upgrades due agenda 4 affordable housing scheme	400no. families affected & afflicted by the demolitions (1 st Distribution) received 400no. food packages	Access to food stuff packages for 400no. families to provide relief and reduce costs of upkeep for affected & afflicted families	<ul style="list-style-type: none"> a) Reduced dependency from relatives & friends b) Enhanced food security for at least one month c) Secure time to look for alternative livelihoods due destruction of previous livelihoods d) Enhanced stability at family level and stimulate family cohesion
Provide bedding materials (Mattress & blankets) to afflicted and affected families with slums demolitions to pave way for road construction and housing upgrades due agenda 4 affordable housing scheme	400no. families affected & afflicted by slums demolitions received 400no. (Beddings & Blankets)	400no. Families affected & afflicted by slums demolitions have adequate protection from assorted bedding materials	<ul style="list-style-type: none"> 1. Improved quality of life for family members 2. Reduced cases of pneumonia and other illness due to cold weather

2.2. Provide an updated action plan

The plan should cover the following period between this interim report and the next report

YEAR												
Activity	Half-Year 1						Half-Year 2					
	Month 1	2	3	4	5	6	7	8	9	10	11	12
Identification of 400no. vulnerable households afflicted & affected by slum demolitions through involvement of village elders, church & KUMEA												
Procurement of foodstuff packages & bedding materials based on competitive bidding process												
Delivery of bedding materials (Mattress & blankets)												
Delivery & provision of food stuff packages to needy families												

2.3. Target group

The project targeted the vulnerable families affected and afflicted by the slum demolitions. The demolitions affected households' livelihoods and also created social problems to most of the community members. During the demolitions families lost properties and investments hence most of them have been living in deplorable conditions. The demolitions extended to neighbouring slums hence the inclusion of households from neighbouring slum communities. The time of demolitions happened to be the time when the country was coming out of the COVID-19 pandemic hence most communities had poor health due to sleeping in the open and in poor state.

However, the provisions provided by the project i.e. the food packages and the bedding materials have helped the communities over some of these challenges. The resumption of food packages later in the next funding will stabilize the communities.

The following is the breakdown of the families that received assistance from the project based on the areas covered and groups targeted

Village /Group	No. Vulnerable households received food stuff packages	No. Vulnerable households received Mattress	No. Vulnerable households received blankets
1. Riverside	26	26	26
2. Koru	19	19	19
3. Malaa	5	5	5
4. Nairobi East	100	100	100
5. Orphans & Persons with disability from Eagle wings group in the slums	52	52	52
6. Kwa Njenga	98	98	98
7. Mael Saba	20	20	20
8. Dandora	14	14	14
9. Kwa Reuben	14	14	14
10. Mlolongo	13	13	13
11. Athi River	7	7	7
12. South B/C Slums	32	32	32
Totals	400	400	400

- 2.4. Income generating projects (if applicable)
 (Projects with an aspect of income, business or revolving funds)
Submit accounts on income generating activities.
Submit data on loan payback and payback mentality.

2.5. Stakeholders and partners

The church leadership, village elders and other local administration leaders in the informal settlement played a big role in identification of the vulnerable afflicted households. There was need also to work with the Orphans and Eagle wings NGO since they have a register of persons and people with disability who required assistance due to the slum demolitions. The participation of the church was critical to enable key members raise additional funds for the food stuff packages to facilitate disbursement of the 2nd phase which will ensure distribution of food stuff packages for a longer period to enhance stability in the target villages.

3. Challenges and Problems

- 3.1. Explain any challenges or problems occurrences and how they have been tackled.
Insecurity is a big problem after demolitions of the slums due to loss of livelihoods and youth unemployment hence a threat when providing essential assistance to communities and households.
We are hoping the situation will stabilize and people start generating their own livelihoods since the housing scheme and road construction was stopped by the previous government. The uncertainty of these projects has brought a lot of confusion to all stakeholders involved and the rest of the communities.

4. Pictures

1.0 Food stuff packages & bedding materials being prepared for distribution

2.0 Food stuff packages & bedding materials ready for distribution

3.0 Community ready to receive foodstuff packages & bedding materials

4.0 Venerable community receiving foodstuff packages and bedding materials

5.0 A Vulnerable community member with disability receiving foodstuff package and bedding materials

6.0 A Vulnerable community member with disability receiving foodstuff package and bedding materials

7.0 Vulnerable community member receiving food stuff packages & bedding materials

8.0 Vulnerable community member receiving food stuff packages & bedding materials
