

KUJENGA MAISHA EAST AFRICA (KUMEA) - UGANDA

Project Completion Report

Dated: 31st December, 2018

KALYANGO – BUTOOBE SHALLOW WELL PROJECT

Project Location / Direction

- Board from Kampala to Masindi,
- From Masindi town you take Hoima road and branch off from Katasenyuwa center,
- From Katasenyuwa center you take Butoobe Road up to Kalyango center and then take Kakwesi – Kijunjuwa road up to Nyabalingwa near sign post of Kalyango Junior School.

1.0 PROJECT OVERVIEW

1.1 Project Area Description

This area is near Kinyara Sugar factory and many dwellers resorted to be out growers in order to earn a living. Therefore. The only spring well they had was made some years back. But because it could not serve the big population in the area, the government organized for national water and it was set in the Kalyango trading center but the water is for sale hence leading to low earners fail to get clean water.

Therefore, the opportunity from New Apostolic Church to assist the dwellers to get clean water was welcomed by the chairman of the area Mr. Aliguma Fred (+256 772 683 980)

The village of Kalyango where the shallow well has been dug is located as follows;

Village – Kalyango – Cell

Ward – Kiryanga

Division – Nyangalya

Masindi Municipality

District – Masindi

The village of Nyabalingwa is approximately having 600 people who will all be benefiting from this project.

1.2 Challenges faced

- The water from Nyabalingwa well has been so dirty.
- The physical landscape of Nyabalingwa well has been hindering the citizens.

Below are some pictures to speak volume.
